A. Defined

In addition to any breaches specified in other sections of this Grant, the failure of either Party to perform any of its material obligations hereunder, in whole or in part or in a timely or satisfactory manner, constitutes a breach. The institution of proceedings under any bankruptcy, insolvency, reorganization or similar law, by or against Grantee, or the appointment of a receiver or similar officer for Grantee or any of its property, which is not vacated or fully stayed within 20 days after the institution or occurrence thereof, shall also constitute a breach.

B. Notice and Cure Period

In the event of a breach, notice of such shall be given in writing by the aggrieved Party to the other Party in the manner provided in §16. If such breach is not cured within 30 days of receipt of written notice, or if a cure cannot be completed within 30 days, or if cure of the breach has not begun within 30 days and pursued with due diligence, the State may exercise any of the remedies set forth in §15. Notwithstanding anything to the contrary herein, the State, in its sole discretion, need not provide advance notice or a cure period and may immediately terminate this Grant in whole or in part if reasonably necessary to preserve public safety or to prevent immediate public crisis.

15. REMEDIES

If Grantee is in breach under any provision of this Grant, the State shall have all of the remedies listed in this §15 in addition to all other remedies set forth in other sections of this Grant following the notice and cure period set forth in §14(B). The State may exercise any or all of the remedies available to it, in its sole discretion, concurrently or consecutively.

A. Termination for Cause and/or Breach

If Grantee fails to perform any of its obligations hereunder with such diligence as is required to ensure its completion in accordance with the provisions of this Grant and in a timely manner, the State may notify Grantee of such non-performance in accordance with the provisions herein. If Grantee thereafter fails to promptly cure such non-performance within the cure period, the State, at its option, may terminate this entire Grant or such part of this Grant as to which there has been delay or a failure to properly perform. Exercise by the State of this right shall not be deemed a breach of its obligations hereunder. Grantee shall continue performance of this Grant to the extent not terminated, if any.

i. Obligations and Rights

To the extent specified in any termination notice, Grantee shall not incur further obligations or render further performance hereunder past the effective date of such notice, and shall terminate outstanding orders and subcontracts with third parties. However, Grantee shall complete and deliver to the State all Work, Services and Goods not cancelled by the termination notice and may incur obligations as are necessary to do so within this Grant's terms. At the sole discretion of the State, Grantee shall assign to the State all of Grantee's right, title, and interest under such terminated orders or subcontracts. Upon termination, Grantee shall take timely, reasonable and necessary action to protect and preserve property in the possession of Grantee in which the State has an interest. All materials owned by the State in the possession of Grantee shall be immediately returned to the State. All Work Product, at the option of the State, shall be delivered by Grantee to the State and shall become the State's property.

ii. Payments

The State shall reimburse Grantee only for accepted performance up to the date of termination. If, after termination by the State, it is determined that Grantee was not in breach or that Grantee's action or inaction was excusable, such termination shall be treated as a termination in the public interest and the rights and obligations of the Parties shall be the same as if this Grant had been terminated in the public interest, as described herein.

iii. Damages and Withholding

Notwithstanding any other remedial action by the State, Grantee also shall remain liable to the State for any damages sustained by the State by virtue of any breach under this Grant by Grantee and the State may withhold any payment to Grantee for the purpose of mitigating the State's damages, until such time as the exact amount of damages due to the State from Grantee is determined. The State may withhold any amount that may be due to Grantee as the State deems necessary to protect the State, including loss as a result of outstanding liens or claims of former lien holders, or to reimburse the State for the excess costs incurred in procuring similar goods or services. Grantee shall be liable for excess costs incurred by the State in procuring from third parties replacement Work, Services or substitute Goods as cover.

B. Early Termination in the Public Interest

The State is entering into this Grant for the purpose of carrying out the public policy of the State of Colorado, as determined by its Governor, General Assembly, and/or Courts. If this Grant ceases to further the public policy of the State, the State, in its sole discretion, may terminate this Grant in whole or in part. Exercise by the State of this right shall not constitute a breach of the State's obligations hereunder. This subsection shall not apply to a termination of this Grant by the State for cause or breach by Grantee, which shall be governed by §15(A) or as otherwise specifically provided for herein.

i. Method and Content

The State shall notify Grantee of such termination in accordance with §16. The notice shall specify the effective date of the termination and whether it affects all or a portion of this Grant.

ii. Obligations and Rights

Upon receipt of a termination notice, Grantee shall be subject to and comply with the same obligations and rights set forth in §15(A)(i).

iii. Payments

If this Grant is terminated by the State pursuant to this §15(B), Grantee shall be paid an amount which bears the same ratio to the total reimbursement under this Grant as the Services satisfactorily performed bear to the total Services covered by this Grant, less payments previously made. Additionally, if this Grant is less than 60% completed, the State may reimburse Grantee for a portion of actual out-of-pocket expenses (not otherwise reimbursed under this Grant) incurred by Grantee which are directly attributable to the uncompleted portion of Grantee's obligations hereunder; provided that the sum of any and all reimbursement shall not exceed the maximum amount payable to Grantee hereunder.

C. Remedies Not Involving Termination

The State, in its sole discretion, may exercise one or more of the following remedies in addition to other remedies available to it:

i. Suspend Performance

Suspend Grantee's performance with respect to all or any portion of this Grant pending necessary corrective action as specified by the State without entitling Grantee to an adjustment in price/cost or performance schedule. Grantee shall promptly cease performance and incurring costs in accordance with the State's directive and the State shall not be liable for costs incurred by Grantee after the suspension of performance under this provision.

ii. Withhold Payment

Withhold payment to Grantee until corrections in Grantee's performance are satisfactorily made and completed.

iii. Deny Payment

Deny payment for those obligations not performed, that due to Grantee's actions or inactions, cannot be performed or, if performed, would be of no value to the State; provided, that any denial of payment shall be reasonably related to the value to the State of the obligations not performed.

iv. Removal

Demand removal of any of Grantee's employees, agents, or Subgrantees whom the State deems incompetent, careless, insubordinate, unsuitable, or otherwise unacceptable, or whose continued relation to this Grant is deemed to be contrary to the public interest or not in the State's best interest.

v. Intellectual Property

If Grantee infringes on a patent, copyright, trademark, trade secret or other intellectual property right while performing its obligations under this Grant, Grantee shall, at the State's option (a) obtain for the State or Grantee the right to use such products and services; (b) replace any Goods, Services, or other product involved with non-infringing products or modify them so that they become non-infringing; or, (c) if neither of the foregoing alternatives are reasonably available, remove any infringing Goods, Services, or products and refund the price paid therefore to the State.

16. NOTICES and REPRESENTATIVES

Each individual identified below is the principal representative of the designating Party. All notices required to be given hereunder shall be hand delivered with receipt required or sent by certified or registered mail to such Party's principal representative at the address set forth below. In addition to, but not in lieu of a hard-copy notice, notice also may be sent by e-mail to the e-mail addresses, if any, set forth below. Either Party may from time to time designate by written notice substitute addresses or persons to whom such notices shall be sent. Unless otherwise provided herein, all notices shall be effective upon receipt.

17. RIGHTS IN DATA, DOCUMENTS, AND COMPUTER SOFTWARE

Any software, research, reports, studies, data, photographs, negatives or other documents, drawings, models, materials, or Work Product of any type, including drafts, prepared by Grantee in the performance of its obligations under this Grant shall be the exclusive property of the State and, all Work Product shall be delivered to the State by Grantee upon completion or termination hereof. The State's exclusive rights in such Work Product shall include, but not be limited to, the right to copy, publish, display, transfer, and prepare derivative works. Grantee shall not use, willingly allow, cause or permit such Work Product to be used for any purpose other than the performance of Grantee's obligations hereunder without the prior written consent of the State.

18. GOVERNMENTAL IMMUNITY

Notwithstanding any other provision to the contrary, nothing herein shall constitute a waiver, express or implied, of any of the immunities, rights, benefits, protection, or other provisions of the Colorado Governmental Immunity Act, CRS §24-10-101, et seq., as amended. Liability for claims for injuries to persons or property arising from the negligence of the State of Colorado, its departments, institutions, agencies, boards, officials, and employees is controlled and limited by the provisions of the Governmental Immunity Act and the risk management statutes, CRS §24-30-1501, et seq., as amended.

19. STATEWIDE GRANT MANAGEMENT SYSTEM

Grantee's performance shall be subject to Evaluation and Review in accordance with the terms and conditions of this Grant, State law, including CRS §24-103.5-101, and State Fiscal Rules, Policies and Guidance. Evaluation and Review of Grantee's performance shall be part of the normal Grant administration process and Grantee's performance will be systematically recorded in the statewide Grant Management System. Areas of Evaluation and Review shall include, but shall not be limited to quality, cost and timeliness. Collection of information relevant to the performance of Grantee's obligations under this Grant shall be determined by the specific requirements of such obligations and shall include factors tailored to match the requirements of Grantee's obligations. Such performance information shall be entered into the statewide Grant Management System at intervals established herein and a final Evaluation, Review and Rating shall be rendered within 30 days of the end of the Grant term. Grantee shall be notified following each performance Evaluation and Review, and shall address or correct any identified problem in a timely manner and maintain work progress.

Should the final performance Evaluation and Review determine that Grantee demonstrated a gross failure to meet the performance measures established hereunder, the Executive Director of the Colorado Department of Personnel and Administration (Executive Director), upon request by the DOL, and showing of good cause, may debar Grantee and prohibit Grantee from bidding on future Grants. Grantee may contest the final Evaluation, Review and Rating by: (a) filing rebuttal statements, which may result in either removal or correction of the evaluation (CRS §24-105-102(6)), or (b) under CRS §24-105-102(6), exercising the debarment protest and appeal rights provided in CRS §§24-109-106, 107, 201 or 202, which may result in the reversal of the debarment and reinstatement of Grantee, by the Executive Director, upon a showing of good cause.

20. GENERAL PROVISIONS

Grantee's rights and obligations hereunder are personal and may not be transferred, assigned or subgranted without the prior, written consent of the State. Any attempt at assignment, transfer, or subgranting without such consent shall be void. All assignments, subgrants, or Subgrantees approved by Grantee or the State are subject to all of the provisions hereof. Grantee shall be solely responsible for all aspects of subgranting arrangements and performance.

Any such required modification automatically shall be incorporated into and be part of this Grant on the effective date of such change, as if fully set forth herein.

I. Order of Precedence

The provisions of this Grant shall govern the relationship of the Parties. K. Survival of Certain Grant Terms

Notwithstanding anything herein to the contrary, provisions of this Grant requiring continued performance, compliance, or effect after termination hereof, shall survive such termination and shall be enforceable by the State if Grantee fails to perform or comply as required.

L. Taxes

The State is exempt from all federal excise taxes under IRC Chapter 32 (No. 84-730123K) and from all State and local government sales and use taxes under CRS §§39-26-101 and 201 et seq. Such exemptions apply when materials are purchased or services rendered to benefit the State; provided however, that certain political subdivisions (e.g., City of Denver) may require payment of sales or use taxes even though the product or service is provided to the State. Grantee shall be solely liable for paying such taxes as the State is prohibited from paying for or reimbursing Grantee for them.

M. Third Party Beneficiaries

Enforcement of this Grant and all rights and obligations hereunder are reserved solely to the Parties, and not to any third party. Any services or benefits which third parties receive as a result of this Grant are incidental to the Grant, and do not create any rights for such third parties.

- Review of historical staffing performance in regards to hazardous materials responses

Phase III: Future Opportunities for Cooperative Efforts

ESCI will use the completed baseline assessment of each agency to identify opportunities and feasibility for cooperative efforts. The project team will identify areas of duplication that can be reduced through consolidation efforts, as well as potential service improvements that can be accomplished. Experience has shown that this frequently becomes the overriding influence for public fire service consolidation efforts.

Items in this section of the report include but are not limited to the areas listed below. The detailed information provides department heads and elected officials with the information necessary to make important decisions regarding emergency services consolidation. Included are:

Task 3-A: General Partnering Strategies

The various partnering strategies are described, beginning with a do-nothing approach and ending with complete consolidation of the agencies into a new emergency service provider. The following alternatives will be evaluated and discussed:

- Complete autonomy
- Advanced auto aid systems
- Functional consolidation
- Operational consolidation
- Legal unification or merger

Task 3-B: Options for Shared Services

The study takes into account the many shared issues that face each agency, and how such matters affect the effort to construct a regional model for efficient service. These issues are identified and analyzed. Within each presented option for shared services, ESCI will evaluate and discuss the following:

- Level of cooperation
- Estimated timeline for completion
- Affected section, i.e. Administration, Operations, Support Services
- Affected stakeholders
- Objective of strategy
- Summary of strategy
- Guidance
- Fiscal considerations
- Social considerations
- Policy actions

Task 3-C: Fiscal Analysis

ESCI uses computer-driven model budgets for each agency to allow a comparative examination of the actual public costs for each fire agency, and as a tool for analyzing the financial effects of any type of consolidation. Budget modeling is also used to measure the effects of the proposed change(s). Funding mechanisms are identified and comprehensive financial outcomes are provided for each consolidation strategy offered.

- Review and analyze department budgets and revenues.
- Review separate budgets.
- Develop projected consolidated budget extending to a minimum of five years.
- Identify financial issues of consolidation.
- Identify areas of short and long-term savings and costs.

Fiscal analysis is an important component of the emergency services evaluation. Long-term survival of an emergency services system requires that the system be adequately funded. ESCI determines the fiscal state of each agency, and develops recommendations on improving the financial resources available for emergency services. All recommendations are consistent with the municipalities' financial capability to provide adequate, cost effective services to citizens. In addition, budgeting practices are thoroughly examined, and alternate methodologies may be suggested.

In addition to the fiscal state evaluation of each agency, ESCI will present an evaluation of various funding

alternatives to assist the region in the sharing of the cost of providing any consolidated or merged emergency services. Presented alternatives will include, but not necessarily be limited to, the following:

- Funding based on:
 - Redirected funds
 - Charitable foundations
 - Mill levy
- Cost allocation based on:
 - Area
 - Assessed value
 - Deployment
 - Service demand
 - Fixed rate
 - Population
 - Multiple variables

Task 3-D: Public Input Meetings

At the conclusion of Phases I, II and III, ESCI staff will facilitate two (2) community public input meetings intended to provide information and gather input from members of the general public, community organizations, and neighborhood associations. In order to assess public sentiment toward potential future system changes, discussions will center on the following issues:

- Customer perception of emergency services
- Desired level of service
- Support for a consolidated emergency services system
- General input

The project team will prepare survey instruments, questionnaires, and forms to be used during the community meeting. Professional graphics and a presentation of study objectives will be used to increase customers' understanding of their role in the process. The results of the assessment of current resources, projections of future demand and risk, and the fire service costs and existing funding sources will be summarized, presented and discussed in the public input meeting. Data and input gathered from the meeting will be summarized within the study, as well as during meetings with internal stakeholders. ESCI will provide facilitation staff for the public meeting, but will expect the client to assist with logistics, scheduling, meeting locations, and public advertising.

Task 3-E: Findings, Recommendations, and Plan of Implementation

Any cooperative venture among the agencies presents the organizational leaders with a series of challenges. Successful implementation of this proposal will require that significant matters be addressed regardless of which form of consolidation is chosen. Those issues will be identified here.

- Findings
 - Feasibility of each option will be presented
- Preferred Option
 - The preferred option or options will be presented and discussed at length
- Policy Action
 - Necessary policy action by the elected bodies will be described
- Timelines
 - The recommendations outlined in this section provide general completion timelines

offered to guide the agencies in developing a more detailed listing during the formal planning process

- Process Issues
 - Strategic planning, legal considerations, management and governance, funding and other issues will be provided in detail

Phase IV: Development, Review, and Delivery of Project Report

Task 4-A: Development and Review of Draft Project Report

ESCI will develop and produce two (2) copies per organization of a draft version of the written report for review by the client and client representatives. Client feedback is a critical part of this project and adequate opportunity will be provided for review and discussion of the draft report prior to finalization. The report will include:

- Detailed narrative analysis of each report component structured in easy-to-read sections and accompanied by explanatory support to encourage understanding by both staff and civilian readers
- Clearly designated recommendations highlighted for easy reference and catalogued as necessary in a report appendix
- Supportive charts, graphs, and diagrams, where appropriate
- Supportive maps, utilizing GIS analysis as necessary

Task 4-B: Delivery and Presentation of Final Project Report

ESCI will complete any necessary revisions of the draft and produce a final version of the report in electronic pdf file format.

A formal presentation of the project report will be made by ESCI project team member(s) to a joint meeting of the community leaders and/or organizations included in this study. The presentation will include the following:

- A summary of the nature of the report, the methods of analysis, the primary findings, and critical recommendations
- Supportive audio-visual presentation
- Review and explanation of primary supportive charts, graphs, diagrams, and maps, where appropriate
- Opportunity for questions and answers, as needed
- All presentation materials, files, graphics, and written material will be provided to the client at the conclusion of the presentation(s)

RECOMMENDED ACTION

Recommendation from the Parks and Recreation Department to approve the resolution supporting the City's grant application to Great Outdoors Colorado for the redevelopment of Duncan Park.

BACKGROUND, ANALYSIS, AND ALTERNATIVES IDENTIFIED

Council authorized the purchase of Duncan Park from Englewood Schools in 2007. The purchase of Duncan Park was supported by a GOCO grant, a ACOS grant and Arapahoe County Shareback Funds. Final park acquisition was completed in 2010. Redevelopment of Duncan Park, including the removal of the old school building is supported by the Parks Master Plan, adopted in 2006. Council authorized the acceptance of the GOCO Duncan Planning grant in 2011. During the vetted planning process park amenities were determined to include: a pavilion, a multi-use sport field, a basketball court, playgrounds, restrooms, landscaping and an internal trail. The estimated cost of the total redevelopment of Duncan Park is 1.2 million dollars. Anticipated funding sources include: GOCO Local Parks and Outdoor Recreation Grant (\$350,000), ACOS Grant (\$250,000), Arapahoe County Shareback Funds (\$575,000) and Conservation Trust Fund (\$25,000).

FINANCIAL IMPACT

The City's Great Outdoors Colorado grant application will request \$350,000 in grant funds with a required City cash match of \$140,000 (Arapahoe County Shareback Funds).

Dear Board Members,

On behalf of the City of Englewood Parks and Recreation Commission, I am writing this letter in support of the City of Englewood's grant application for the development of Duncan Park.

With GOCO's grant support, the City was able to purchase the Duncan Park property from Englewood Schools, who were disposing of surplus property to offset budget reductions. We were able to save the site as parkland and now we have razed the small school building and completed design and construction documents for the park redevelopment.

In May of 2006, the Parks and Recreation Commission adopted a Parks and Recreation Master Plan which identified the southeast residential area of the City as presently being underserved; with a relatively low parkland level of service.

The Parks and Recreation Commission has identified the redevelopment of Duncan Park as its highest park development priority. We appreciate the opportunity to be considered for GOCO grant dollars for this very important project.

Sincerely,

Austin Gomes, Chairperson
Parks and Recreation Commission

Dear GOCO;

We are a group of nearly 100 homeowners and neighbors living around Duncan Park in Englewood, Colorado who have greatly appreciated grant money you previously awarded for the purchase of our cherished neighborhood park.

As we've shared in the past, this park is the only neighborhood park to meet the needs of this corner of Englewood – an area that represents approximately 20 percent of the town's population.

Recently we learned that you would consider this park for a development grant. With this money, our City told us we would be able to move forward with the improvements to our park! This little park has been in such need of redevelopment. As much as we enjoy using it today, we look forward to when it can provide even more opportunities for outdoor activities.

The City plans to work with our group as it takes the necessary steps to renew our park. We know a grant from you would give us all the resources we need to do so. Please help our neighborhood realize its dreams to give Duncan Park the makeover it so genuinely needs.

Sincerely,

John Riggs

Dear GOCO Members,

Englewood Unleashed is a non-profit corporation that was formed to support off-leash dog privileges at designated parks within the City of Englewood. Duncan Park is one of four neighborhood parks in the City with off-leash privileges and the only park in southeast Englewood.

EU works with, aids and assists the City of Englewood by raising funds and providing volunteer support to improve and better maintain the off-leash parks in Englewood in order to provide dogs a place to exercise without leash restraint in a clean, healthy and safe environment. We are writing in support of the development grant, that Englewood is applying for and we wish to support their development effort of Duncan Park through a \$500 donation.

EU cultivates community spirit and neighborhood relations through various outreach efforts. We believe that Duncan Park is one of these valuable assets and hope that you will view the project as worthy of your funding dollars.

Sincerely,

Barb Chumley 
Englewood Unleashed President

All applicants must respond to the following selection criteria questions in seven to nine pages. This application will be scored on a 100 point basis with each question below worth five points. The seven to nine page limit does not include attachments, photographs, maps, letters, etc. Each project will be reviewed by outside reviewers and GOCO staff, and projects will be ranked according to reviewer and staff scores.

In a separate document, please answer every question, restating the question that you are answering. Failure to provide a response to any question will reduce your project's score. Please reference all attachments.

1. Describe the community/neighborhood the project will serve. (If the project is designed to serve a particular neighborhood or population within a larger city/subdivision/community, focus on the neighborhood/population to be served.) Include population, income data and insight into the recreational interests of the community.
2. Describe access to the proposed project. Is it accessible by trail? How is it situated in relation to where users live; how will users access it; is it near or linked to schools, other recreational amenities, or community gathering spots? Are there obstacles to getting to the project site, if so, how do you intend to overcome them? (Please provide a map sufficiently detailing where the project is located and what surrounds it. Also provide a site map.)
3. Describe the scope of the project – what exactly will be built. Be specific, explaining preparatory work, quantities, dimensions, etc. If the project is intended to enhance or replace existing facilities, describe the state of the existing facilities, why the facilities are no longer acceptable or usable, and how they got into the condition they're in. Include photographs of amenities to be replaced.
4. What is the useful life of each component of the project and how was that useful life determined? Describe the consultations you have had with outside experts, other communities, or knowledgeable individuals about, building this sort of project. How did or will you choose particular vendors, materials, systems, etc.?
5. Will a CYCA-accredited youth corps or other local youth organization be used to implement the project? If so, describe the collaboration you've had with that corps or organization and what work they'll be doing. Submit a letter of support from the corps or organization that you will be collaborating with. If the corps will not participate in the project, submit a letter/email from CYCA explaining why.
6. Who are the existing and/or expected users of the proposed project? What individuals, organized sports leagues and teams, school and youth groups, etc will the project benefit? Provide user numbers for each user group (and how did you arrive at that estimate?)
7. Describe the recreational needs that this project will serve. How will the project enhance recreational offerings, including programs, in the community? What opportunities are lost if this project is not undertaken now?

Section 2 – Application – Selection Criteria Questions

8. How are potential users of the project compensating now for the lack of the project? Do they have to visit other communities to use a similar amenity; do they have a substitute offering available; or do they simply go without?
9. What environmental education opportunities does the project provide; in what ways does the project increase awareness of the local, regional, or state landscape/environment?
10. How does the project provide a unique opportunity for youth and their families to spend time engaging in outdoor recreation?

Answer one set of questions 11 and 12. If your project is part of a master plan, answer set one. If your project is not part of a master plan, answer set two.

Set One

11. Is the project listed as a priority in a developed master plan? If yes, when was the plan completed? What priority is this project listed as within the plan? If it is not the top priority; discuss why this project is being pursued at this time.
12. What specific opportunities did the public have to comment on the master plan? Provide the number of public meetings held. How were meetings advertised? How many people attended? Summarize the feedback received.

Set Two

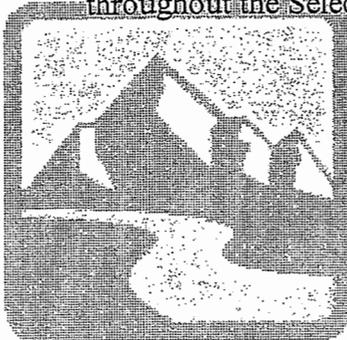

11. If the project is not part of a developed master plan, discuss how the community participated in the planning for this project. If public meetings were held, how far in advance of the application deadline did they occur? How were they advertised? Submit copies of the advertisements. How many people attended? If a survey was distributed, how many people and what groups were surveyed? How many people responded? Provide one copy of a blank survey.
12. Discuss the feedback received from the public and how it was determined that your constituents want and will use the project?

All applicants must proceed, answering questions 13 - 19

13. Who is supporting the project (users, members of the community, project partners) in ways other than cash or in-kind contributions? Include up to seven support letters/emails from users, user groups, other funders, community members, volunteers, etc. Support letters/emails must be included with the application and **will not** be accepted if mailed to the GOCO office.
14. Who is opposed to the project? Have neighbors, user groups, or other parties objected to the project? Include any letters, petitions, news articles, or other documents evidencing opposition. What has been done to address the concerns of those opposing and how has the opposition responded?

Section 2 – Application – Selection Criteria Questions

15. Is the project “shovel ready?” Provide evidence that it will be completed within two years of the award date. Describe the planning that has gone into the project; is design and engineering complete or is there work yet to be done?
16. What is compelling about your community’s need for GOCO funds? Will the project (or components of it) get done if GOCO funds are not available? Will applicant or partner funds dedicated to the project be lost if GOCO doesn’t award a grant now?
17. How much of your planned cash match is secured? How much of it is yet to be raised and what are your plans for raising those additional funds? What is your “Plan B” if you are unable to raise those funds?

COUNCIL COMMUNICATION

Date: August 20, 2012	Agenda item: 10 a	Subject: Amendments to Title 16 and Title 11-3-3 of the Englewood Municipal Code Concerning Signs (C.B. 39, Series 2012)
Initiated By: Community Development Department		Staff Source: Alan White, Director

COUNCIL GOAL AND PREVIOUS COUNCIL ACTION

In October 2009 City Council enacted a moratorium, or temporary suspension, on the enforcement of provisions of the Englewood Municipal Code pertaining to banners and portable signs. In February 2010, Council enacted a second moratorium as a result of a Colorado Court of Appeals decision dealing with murals. In late 2010 the two moratoria were combined into a single resolution to provide staff and the Planning and Zoning Commission the opportunity to review the Sign Code and make recommendations for possible amendments. The current extension enacted as Resolution No. 73, Series of 2012, is scheduled to expire on December 31, 2012, or the effective date for the passage of this C.B. 39, Series 2012, whichever occurs first.

Council discussed the proposed amendments at the April 9, 2012 Study Session.

On July 2, 2012 Council considered the proposed amendments on First Reading. Council raised several issues, continued the First Reading to August 6th, and requested a study session to be held on July 16, 2012. At that session staff presented background and alternatives for each issue for Council consideration. Of the five topics considered:

- Council consensus was to support Planning Commission's recommendations on three issues: no time limits for holiday decoration, maximum size of 3 feet by 2.5 feet for portable signs on the public sidewalk, and to allow murals provided the mural does not contain a commercial message.
- Council consensus was to retain Unified Development Code (UDC) time restrictions for posting of election signs, which Planning and Zoning Commission recommended eliminating.
- Council did not reach consensus on the issue of pennants, streamers, fringe, balloons and similar devices.

On August 6, 2012 Council again considered the proposed amendments at the continued First Reading. Council accepted the Commission's recommendation regarding removing the time limits for holiday decoration display. By Motion, Council made the following amendments regarding the other four topics:

- Murals:
Works of Art, including murals, shall not contain the name or logo of any business.
- Portable signs on the public sidewalk:
Increase the height and width of such signs from 3' x 2.5' to 4' x 3' respectively.

- Pennants, streamers, fringes, balloons, and similar devices:
Remove these advertising devices from the list of prohibited signs, allowing them as incidental signs without restrictions.
- Election signs:
Retain current Unified Development Code restrictions for the posting and removal of election signs to forty-five (45) calendar days prior to and fifteen (15) calendar days following the election to which the sign relates.

These First Reading amendments are incorporated into the attached Bill for an Ordinance.

RECOMMENDED ACTION

Recommendation from the Community Development Department to consider testimony during Public Hearing on a Bill for an Ordinance authorizing amendments to 16-6-13: Signs and associated amendments regarding signs to other sections of Title 16: Unified Development Code and to Title 11: Public Ways and Property of the Englewood Municipal Code.

BACKGROUND, ANALYSIS, AND ALTERNATIVES IDENTIFIED

Sign Code regulations have remained relatively unchanged for nearly thirty years. The City recognized that sign regulations were out of date and had not kept pace with industry changes; signage was becoming more technologically sophisticated with the use of electronic signs. Initial work on possible amendments to the Sign Code began in 2006 with a code analysis by an outside consultant. Two significant events were the catalyst for updating the Sign Code; the 2009 Public Forum on sign issues, and a finding by the Colorado Court of Appeals that the Sign Code's special review procedures were unconstitutional.

Input gathered at the 2009 Public Forum focused on the Sign Code being out of date, too complex, and most importantly not reflective of business needs or current economic conditions. City Council directed staff to address temporary signage, such as banners and sandwich boards.

The Planning and Zoning Commission discussed and reviewed current regulations and proposed amendments at eighteen study sessions. Drafting of proposed amendments culminated in an open house Public Forum on May 17, 2012, to provide updates and information and gather public input regarding the proposed amendments. The Forum included comparisons of the current Sign Code and proposed amendments, photos, an opinion survey, and a question and answer discussion. Eight members of the public attended including representatives from three major billboard companies. The Commission conducted a Public Hearing to consider public comment on the proposed amendments to 16-6-13: Signs on June 5, 2012. One member of the public attended the Hearing, but did not speak. Following discussion, the Commission voted 7 to 0 to forward to City Council a recommendation to approve the proposed amendments.

Public outreach and public input opportunities included:

- Periodic updates to Alliance for Commerce in Englewood (ACE) and South Broadway Englewood Business Improvement District (BID)
- Commission study being sessions open to the public and the public provided input at several meetings
- "Public Comment" draft, fact sheet, amendment summary published as "Hot Topics" on City website

ACCESSORY (formerly called "temporary") SIGNS – ON-SITE: The current Sign Code prohibits banners, pennants, wind signs, inflatable devices, and portable signs often used for short-term advertising. Under very limited situations a banner could be displayed for two weeks.

Proposed Amendments:

- Applies to on-site accessory signs

- Two (2) accessory signs allowed
- No permit required
- No time limit
- The type of sign determines an on-site accessory sign’s maximum size
- Allowed Types: wall banner, wind-driven, inflatable, portable sign or object.

DEFINITIONS: The current Sign Code contains more than 60 sign-related definitions; some are duplicates, some are no longer used or are outdated. Current Sign Code definitions do not address new technologies (i.e. electronic terminology).

Proposed Amendments:

- Delete unused definitions

- Update/edit other terms
- Insert new definitions (i.e. related to electronic displays).

DELETED MATERIAL: The following items are proposed to be deleted.

Proposed Amendments:

- Content Neutrality – Several sections of the current Sign Code restrict or limit what can be included on a sign. All references to the content of a sign are deleted
- South Broadway Sign Code – The current Sign Code has two sets of sign standards; one for properties fronting along the South Broadway corridor, another for the rest of the City. The standards are now combined and all non-residential districts in the City have been upgraded to the previous standards applying to the South Broadway corridor

Proposed Amendments:

ILLUMINATION: The current Sign Code contains no standards for sign brightness.

Proposed Amendments:

- Allowed illumination methods: internal, external, integrated, electronic
- Brightness standards established for each illumination method
- Prohibited illumination: strobe light, accessory, and home occupation signs
- No sign illumination between 11:00 PM and 7:00 AM in residential zones except for 24-hour medical services, police and fire
- Manufacturer's rating must be provided with sign permit application
- Electronic message display signs are allowed in non-residential districts.

HUMAN SIGNS: The current Sign Code contains no provisions for signs held, attached to or worn by a person.

Proposed Amendments:

- No sign permit required
- Maximum Number: One (1) per business
- Maximum Area: The maximum area of a sign held or attached to a human shall be ten (10) square feet

INCIDENTAL SIGNS ALLOWED WITHOUT SIGN PERMIT: The current Sign Code allows several types of signs (i.e. scoreboards, bulletin boards, political yard signs, holiday decorations) without a Sign Permit provided they meet certain number or size standards.

Proposed Amendments:

- Add the following to the list of signs that can be displayed without a permit:
 - Pennants, streamers, fringe, and balloons and similar devices
 - Drive-thru menu boards
 - Kiosks
 - Café table umbrellas
 - Vending machines

Also nonconforming signs must be terminated when there is a change in lessee, business, or property ownership, or if the sign is damaged more than 50% of its total replacement value.

Proposed Amendment:

- Sign termination clause eliminated for change in lessee, business, or property ownership
- Landmark nonconforming sign section added that allows certain signs to be reconstructed even if damaged more than 50%. A hearing, with public notice, before the Planning and Zoning Commission is required.

PRINCIPAL SIGNS: The current Sign Code guarantees at least three (3) signs for each use; those signs may total up to 80 square feet. Larger uses and properties are eligible for more signs and more sign area. There are no requirements for sign material or construction.

Proposed Amendments:

- Guaranteed minimum sign area for any use: Increased from 80 to 100 square feet
- Street frontage factor standardized for all locations at 2 square feet (some were factored at 1 ½ square feet)
- Maximum individual sign: Increased from 100 to 125 square feet

- Roof signs
- Signs in beds of trucks parked on private property

RULES OF MEASUREMENT and COMPUTATION: The current Sign Code utilizes an “8-Line Rule” to determine the area of a sign.

Proposed Amendments:

- Area is based on standard mathematical methods enclosing the extreme limits of the sign using any number of lines
- 3-D objects: Based on length x width of the object’s largest profile
- Multi-faced signs: Sign display surface (face) standardized.

SIGNS IN THE PUBLIC RIGHT-OF-WAY: The current Sign Code prohibits all signs in the public right-of-way. Sections of *Title 11: Public Ways and Properties* EMC prohibit private signs on the public sidewalk.

Proposed Amendments: Applies only to Portable Signs on the Public Sidewalk

SUBSTITUTION CLAUSE: The current Sign Code does not contain such a clause.

Proposed Amendment:

- To ensure all signage is afforded equal protection under the Code, any authorized sign may contain either commercial or non-commercial copy.

VISIBILITY: The current Sign Code contains very limited language on sign placement related to traffic and pedestrian visibility.

Proposed Amendments:

- Diagrams added illustrating "sight triangles" where signage is restricted at intersections and ingress/egress points

CONCLUSION

The proposed amendments are intended to:

1. Meet Business Community Needs:

The proposed amendments provide business owners more cost-effective and flexible marketing opportunities in a challenging economic climate by allowing human signs, pennants, streamers, fringe, balloons, and certain signs in the public right-of-way. The amendments address technological advances in the sign industry by allowing electronic signs. Under the proposed amendments larger signs will be allowed for most individual business and multi-tenant sites will also have the opportunity for larger signs. Sign Permit requirements are eased under the proposed amendments with no permit requirement for incidental signs, accessory signs, or signs in windows not exceeding twenty-five percent of the window area.

2. Meet Administrative Needs:

Administratively the proposed amendments simplify the code by providing clarification of sign requirements and standards with tables and diagrams. Previous conflicts and ambiguities are eliminated making the new Sign Code easier to use, administer, interpret, explain, and enforce.

3. Maintain Community Character:

The proposed amendments balance the aesthetic interests of the community with the need to advertise and inform the public.

4. Meet Legal Standards:

The proposed amendments establish an effective and defensible Code through content neutrality and equal protection provisions.

FINANCIAL IMPACT

Financial impacts of the proposed Sign Code amendments include loss of permit fee revenue for banners that were previously considered "temporary". This loss is likely to be offset by revenues generated by permit fees for portable signs (i.e. A-frames) proposed to be allowed on the public sidewalk.

A BILL FOR

AN ORDINANCE AMENDING TITLE 16, CHAPTER 6, SECTION 13 ENTITLED "SIGNS" OF THE ENGLEWOOD MUNICIPAL CODE 2000.

WHEREAS, the First Amendment is the foundation of individual liberty and self-government. It embodies the Nation's profound commitment to "uninhibited, robust, and wide-open" debate on public issues to promote the will of the people, prevent majority tyranny, and maximize individual self-development. This protection has historically been limited to personal speech as opposed to "commercial speech" such as signs advertising a business or product. *New York Times Co. v. Sullivan*, 376 U.S. 254, 269-71 (1964); and

WHEREAS, the law began to change in 1976, when the Supreme Court handed down *Virginia State Board of Pharmacy v. Virginia Citizens Consumer Council*, 425 U.S. 748 (1976) where Court held that commercial speech was entitled to some degree of protection under the First Amendment. The Court firmly established that commercial speech restrictions are valid only when the restrictions are justified without reference to the content of the regulated speech; serve a significant governmental interest, and leave open ample alternative channels for communication of the information. Restriction of truthful commercial speech concerning a lawful activity is permissible only if (1) the government interest served by the regulation is substantial, (2) the regulation directly advances the government's interest, and (3) the regulation is no more extensive than necessary to serve that interest. This is known as time, place and manner regulation; and

WHEREAS, in 2000, the City had created a specialized sign code, known as the Creative Sign Code (CSC) designed for the South Broadway commercial area to address historical or creative exceptions to the Sign Code and to enhance redevelopment in that area because of the complexity of some of the special types of signs and the short time frame normally allowed for review of signs, the CSC provided for a special process for City review of those sign permits which process included a review by a committee familiar with those types of signs, making a recommendation to the City Manager for a final decision; and

WHEREAS, in a case involving a mural painted without a permit, the Colorado Court of Appeals has ruled that the City's procedure for this special review does not provide the adequate procedural safeguards of a specific time limit within which the City Manager must decide whether to issue a permit under the time, place and manner test; and

WHEREAS, in February 2010, Council enacted an additional moratorium on enforcement relating to murals as a result of this Colorado Court of Appeals decision; and

WHEREAS, input gathered at a 2009 Englewood Public Forum focused on the Sign Code being out of date, too complex, and most importantly not reflective of business needs or current economic conditions; and

WHEREAS, City Council directed staff to address temporary signage such as banners and sandwich boards enacted a moratorium on the enforcement of provisions of the Code relating to banners and portable signs; and

WHEREAS, due to the aforementioned issues and because Sign Code regulations have remained unexamined, except for the CSC, for nearly thirty years; and

WHEREAS, the City recognizes that its sign regulations are out of date and have not kept pace with industry changes; and

WHEREAS, signage is becoming more technologically sophisticated with the use of electronic signs; and

WHEREAS the City wishes to encourage sign designs for Englewood businesses which are innovative, creative, interesting, and exciting, so that Englewood businesses can market their business and Englewood more effectively; and

WHEREAS, the proposed amendments are intended to meet the business community's needs; to meet the City's administrative needs; to maintain community character and to meet legal standards for an effective and defensible sign code; and.

WHEREAS, The Planning and Zoning Commission discussed and reviewed current regulations and proposed amendments at eighteen study sessions. The Commission conducted a Public Hearing to consider public comment on the proposed amendments to 16-6-13: Signs on June 5, 2012. The Commission found that certain commercial signs such as billboards are considered so intrusive into the public view as to be subject to location and size restrictions and even prohibition, also as a result of this review this proposed Sign Code exempts most murals, as art, from the requirement of obtaining a permit; and

WHEREAS, the Commission recommended that the City adopt a Bill for an Ordinance authorizing amendments to 16-6-13: Signs and associated amendments regarding signs to Title 16: Unified Development Code and Title 11: Public Ways and Property of the Englewood Municipal Code; and

WHEREAS, the Sign Code changes will conform to "Roadmap Englewood: 2003 Englewood Comprehensive Plan" relating to Goal 3: Promote economic growth by building on Englewood's strong sense of community image, identity, and quality of life; Objective 3-2: Provide a safe, healthy, and attractive business environment and Objective 3-3: Recognize the complementary effects between the physical appearance of both commercial districts and the surrounding residential areas; and

WHEREAS, the Sign Code as amended will provide the business community increased flexibility and latitude in creatively addressing their advertising needs while protecting the community's image and visual environment.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ENGLEWOOD, COLORADO, THAT:

Such signs shall be maintained as to avoid faded or discolored backgrounds or copy; broken, loose, or ill-fitting pieces; and jagged edges or other conditions that may pose a hazard to pedestrians.

(4) Display. Portable signs on a public sidewalk shall meet the following display standards:

- (a) The sign shall only be displayed during hours when the establishment to which the specific sign pertains is open for business.
- (b) The sign shall only be located on the public sidewalk.
- (c) The sign shall not move or include moving parts, attached balloons, pinwheels, flags, banners, streamers, pennants, or similar devices.
- (d) The sign may contain a commercial or noncommercial message.
- (e) Illumination. Only self-contained illumination approved by the City Manager or designee shall be permitted.

(5) Portable Sign Standards. The City Manager or designee may grant permission for the placement of a portable sign on a public sidewalk to an establishment occupying a building that is located immediately abutting or within two and one-half feet (2.5') of the public sidewalk, provided the following standards are met:

- (a) Maximum Number. A portable sign on a public sidewalk shall count toward a use's maximum allowed number of accessory signs.
 - i. Single tenant on site: Limited to one (1) such sign.
 - ii. Multi-tenant building: Limited to one (1) such sign for each use located on the first floor of the building.

(b) Placement. Portable signs on a public sidewalk shall be placed so that:

- i. The sign is between a building front and the curb line in front of the establishment to which the sign pertains.
 - ii. The sign is on the sidewalk surface and not on any structure, vehicle, or area containing landscaping.
 - iii. The sign is at least two feet (2') behind the curb line.
 - iv. The sign is anchored or secured in a manner approved by the City Manager or designee.
 - v. A minimum of five feet (5') of unobstructed walkway for pedestrian passage is maintained at all times and any applicable provisions of the Americans with Disabilities Act are met.  - (c) No portable sign shall be approved if the property is not in compliance with Section 16-6-13 EMC – (Signs). If after receiving a Sign Permit, the property fails to remain in compliance with this Section, the Permit shall be revoked and shall not be reissued for one (1) year.
 - i. The City Manager or designee shall issue portable Sign Permits for one (1) year; however, the Sign Permit may be revoked earlier at the City's discretion.
 - (d) In addition to a Sign Permit, a "Temporary Occupancy of the Public Right-of-Way Permit and Indemnity Agreement", or other document approved by the City, shall be required.
- (7) Business Improvement Districts. Business Improvement Districts (BIDs) may notify the City Manager or designee that the BID does not want to have such signs permitted anywhere in their District. Such notice shall be an official notice from the BID, in writing, showing the decision

and date it was adopted. If such notification is made, the City shall not permit portable signs on the public sidewalk within that BID.

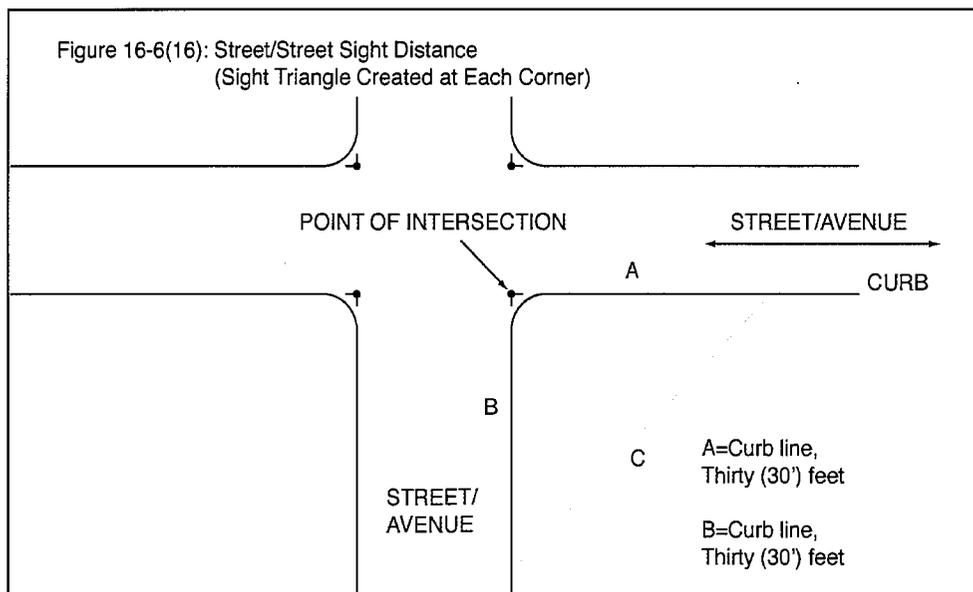

3. Signs Prohibited in the Public Right-of-Way. Signs Requiring a City License or Agreement under 16-6-13(D)(2) EMC when there is no existing permit, license and agreement and all signs not allowed by Subsections 16-6-13(D)(1) EMC - (Signs Not Requiring a Sign Permit) shall be prohibited in the public Right-of-Way.

Section 5. The City Council of the City of Englewood, Colorado hereby authorizes amending Title 16, Chapter 6, Section 13, by the addition of a new Subsection E – “Sign Specifications”, and amending Subsection L, of the Englewood Municipal Code 2000, of the Sign Code to read as follows:

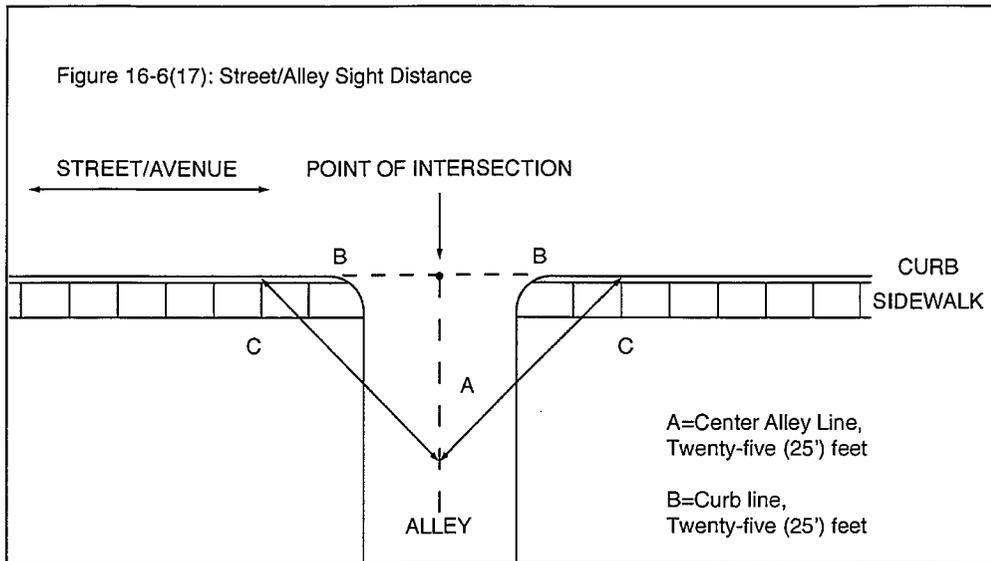

E. Sign Specifications.

1. Visibility. Signs and advertising devices shall not obstruct the visibility of pedestrians and vehicular traffic within sight triangles established by this Subsection. Monument signs over three feet (3') in height above the grade, and pole signs with a clearance of less than eight feet (8') between grade and the bottom of the sign shall be prohibited within the following sight triangles:

- a. Street/Street Intersection. Said triangle shall be measured from a point where two street curb lines intersect. The distance from this point shall be thirty feet (30') along each street curb lines (“A” and “B”). The third side of the triangle (“C”) shall connect these two sides, creating the triangle. Figure 16-6-(16) shall be used to determine said triangle.

- b. Street/Alley Intersection. Said triangle shall be measured from a point where the street curb line and the centerline of the alley intersect. The distance from this point shall be twenty-five feet (25') along the curbline (“B”) and twenty-five feet (25') along the alley center line (“A”). The third side of the triangle (“C”) shall connect these two sides, creating the triangle. Figure 16-6-(17) shall be used to determine said triangle.

- c. The City Traffic Engineer shall review and establish sight distance standards related to Sign Permit applications for all other situations (i.e. driveways and ingress/egress points) not described herein.
- d. The City Traffic Engineer shall determine compliance with sight distance standards in connection with all Sign Permit applications and shall be authorized to vary these standards depending on site conditions.

4. 2. Permitted-Sign Illumination.

[Editors Note: Illumination was listed in 16-6-13(H) separately under each zone district]

- a. Purpose. Signs in commercial and industrial zones may be illuminated, but all direct illumination shall not exceed forty (40) watts per bulb. The purpose of this Subsection is to provide objective and practical sign lighting levels for principal signs that promote sign legibility and which mitigate potential impacts on traffic safety and the community at large.
- b. Methods of Illumination. The following methods of illumination may be allowed provided zone district illuminations standard are met:
 - (1) Internal Illumination. The light source is contained within the sign, not visible to the eye, and shines through a translucent surface; examples include, but are not limited to, box signs and channel letters. Internally lighting of signs shall not include exposed incandescent or fluorescent bulbs.
 - (2) External Illumination. The light source is outside of and directed toward the sign face; examples include, but are not limited to, flood or spotlights and gooseneck lights. External illumination shall comply with the following: Goose-neck lamps and other similar lighting fixtures that provide a directed illumination of the sign area, without significant spillover of light onto public sidewalks or rights of way, are permitted and encouraged.
 - (a) External lighting of signs may be achieved by down lighting or by ground-mounted light fixtures as follows:
 - i. External lighting of signs ten feet (10') or more in height shall only be illuminated from the top of the sign and directed downward.
 - ii. External lighting of signs less than ten feet (10') in height may be illuminated from the top of the sign or from the ground.

(b) The fixtures shall be shielded and directed in such a manner as to illuminate only the face of the sign, the light source is concealed from pedestrians' and motorists' "lines of sight" and any illumination beyond the sign face is minimized.

(3) Integral Illumination. The light source itself is a fundamental element of the sign; examples include, but are not limited to, neon or bulbs that spell out the sign message. Exposed bulbs may be up to fifteen (15) watts in power.

(4) Electronic Message Display (EMD) Illumination. The light source is programmed and supplied by use of incandescent lamps, light emitting diodes (LED), liquid crystal displays (LCD), a flipper matrix, or similar electronic means.

c. Sign Illumination Standards.

(1) All lighted signs shall meet applicable electrical codes adopted by the City and a separate Electrical Permit shall be required.

(2) Non-electronic message display (EMD) signs illuminated at night shall not exceed a maximum luminance level of seven hundred fifty (750) candelas per meter squared (cd/m²), regardless of the method of illumination. Measurement shall be in candelas per meters squared (the luminous intensity of a sign in a specific direction divided by the area of the sign).

(3) Electronic message display (EMD) signs. The difference between the off and solid-message measurements shall not exceed 0.3 footcandles at night. See Subsection 16-6-13(F)(6)(b)(5)(F)(iii) EMC.

(4) Accessory signs shall not be illuminated.

(5) No sign in any R-1, R-2, or R-3 District shall be illuminated between 11:00 PM and 7:00 AM, except signs permitted for 24-hour medical services, and public services such as police and fire.

e d. Prohibitions and Restrictions. Neon illuminated signs are permitted, subject to all other applicable standards in this Section.

(1) Sign illumination is prohibited for the following: home occupation signs, on-site accessory signs and advertising devices. Signs illuminated with florescent lighting.

(2) Any sign displaying flashing or intermittent lights, or lights of varying intensity, except those portions of a sign indicating time and temperature or electronic changeable copy signs with intermittent lights due to the change of copy.

(2) Signs shall be illuminated in a way that does not cause glare onto the adjacent pedestrian ways, streets, or adjacent properties.

(3) Only self-contained illumination approved by the City Manager or designee shall be permitted for portable signs on the public sidewalk.

(4) Signs shall not include animated, flashing, moving or intermittent illumination except that electronic message display signs may change no more frequently than the rate specified in Subsection 16-6-13(F)(6)(b)(5) EMC – (Electronic Message Display (EMD) Signs).

(1) Signs illuminated with florescent lighting.

e. Searchlights. Searchlights are permitted in MU-B-1, MU-B-2, I-1 and I-2 Districts only. Searchlights directing attention to, or advertising a business shall be considered accessory signs.

(3) Any sign with direct or indirect lighting that causes direct glare into or upon any lot or tract with a residential use that is adjacent to the lot or tract where the sign is located.

d. ~~Canopy signs may be back lit; awning signs shall not be back lit except for individual letters and business logos.~~ Applications for Sign Permits for any illuminated sign shall include the manufacture's Cd/m² (candela per square meter) rating.

3. Rules of Sign Area Measurement and Computation. The following regulations shall control the measurement and computation of sign area, sign height, sign clearance, street frontage and building frontage.

a. Area to be Measured-Sign Area. ~~The area of a sign shall be measured in conformance with the regulations as herein set forth, provided that the~~ The entire sign face within a continuous perimeter enclosing the extreme limits of the display surface, including any framing, trim, or molding shall be included in the computation of sign area. ~~The supporting structure or bracing of a sign shall be omitted from measurement, unless such structure or bracing is made part of the message or face of the sign.~~

(1) Sign Area Computation. The area of all signs shall be computed by use of standard mathematical methods. An unlimited number of lines may be used to enclose the extreme limits of the sign, including all frames, backing, face plates, non-structural trim or other component parts not otherwise used for support.

a. (2) Sign with Backing/Background. The area measurement of a sign that is enclosed by a box, framed, or outlined, painted or otherwise prepared and intended to provide a background for the sign display shall be measured by determining determined by the area of the entire sign including the background material. each rectangle which creates the smallest single continuous perimeter enclosing the extreme limits of the display surface or face of the sign; including all frames, backing, face plates, non-structural trim or other component parts not otherwise used for support.

b. (3) Signs without Backing. The area of signs consisting comprised of individual letters, figures, or symbols elements shall be measured determined by determining the sum of the area of the smallest single continuous rectangle enclosing the extreme limits of each message, including all frames, face plates, non-structural trim or other component parts not otherwise used for support. each separate element and shall include all the display areas, including the open space between the elements.

e. Signable Area. Signable wall area is a continuous portion of a building facade unbroken by doors or windows or major architectural features. It is calculated by selecting a continuous surface, then drawing an imaginary rectangle within specified height limitations and computing the square foot area of this rectangle. Persons displaying signs attached to a building may determine the "signable area" to be used by choosing any such area on the building facade for the display of signs. If, because of the design of the building, a signable area cannot be identified, the City and the applicant will determine a suitable area for signage.

d. Irregular Outline. In the case of an irregularly shaped sign or a sign with letters and/or symbols directly affixed to or painted on the wall of a building, the area of the sign shall be the entire area within a single continuous rectilinear perimeter of not more than eight (8) straight lines enclosing the extreme limits of writing, representation, emblem or any figure of similar character.

e. Multi-Faced Signs. The sign area for a sign with more than one (1) face shall be computed by adding together the area of all sign faces visible from any one point. When two (2) identical sign faces are placed back to back, so that both faces cannot be viewed from any point at the same time, and when

such sign faces are part of the same sign structure and are not more than forty-two inches (42”) apart, the sign area shall be computed by the measurement of one of the faces.

- (4) Three-Dimensional Signs (3D) and Advertising Devices. The area of three-dimensional, spherical, free form, sculptural and/or other nonplanar signs or advertising devices, shall be determined by multiplying the length times width of the object’s largest profile. The measurements shall be taken with the object at full extension.
- (5) Sign Faces. A sign face is the display surface available for displaying a message. The number of sign faces used to calculate the area of a sign shall be determined by Table 16-6-13.2 EMC – (Sign Face Computations to Determine Sign Area).

Table 16-6-13.2: Sign Face Computations To Determine Sign Area

<u>Notes to Table:</u>			
1. <u>Provided the separation between faces is no greater than eighteen inches (18”) and no sign is displayed on the separation surface.</u>			
2. <u>Back-to-back signs shall be regarded as a single sign only if mounted on a single structure, and the distance between each sign face does not exceed eighteen inches (18”) and no sign is displayed on the separation surface..</u>			

2. Computation of Volume for Projecting Signs. Volume is calculated by multiplying width by height by depth. The volume of a projecting sign will be calculated as the volume within the smallest rectangular form that could be constructed to enclose the primary shape of the sign. Where signs are reviewed by the City Manager or designee, that committee may allow minor elements to extend beyond such rectangular form without including them in the sign area calculation, provided that the committee determines that such minor elements add to the design quality without contributing to the perceived mass or size of the sign.

3b. Computation of Sign Height.

- (1) Ground Signs. The height of a ground sign shall be computed as the vertical distance from the base of the sign at normal grade at the base of the sign or its support structure, whichever is lower, and the topmost portion of the sign or the structure supporting the sign, whichever is higher, to the top of the highest attached component of the sign. Normal grade shall be construed to be the lower of: (1) existing grade prior to construction; or (2) the newly established grade after construction, exclusive of any filling, berming, mounding or excavating solely for the purpose of locating the sign.

In cases where the normal grade cannot reasonably be determined, sign height shall be computed on the assumption that the elevation of the normal grade at the base of the sign is equal to the elevation of the nearest point of the crown of a public street, ~~or the grade of the land at the principal entrance to the principal structure on the zone lot, whichever is lower.~~

- (2) Projecting and Marquee Signs. The height of projecting and marquee signs shall be computed as the vertical distance from the lowest grade below the sign or its support structure, whichever is lower, and the topmost portion of the sign or the structure supporting the sign.
- c. Sign Clearance. Clearance for all signs shall be measured as the vertical distance between finished grade and the lowest point of the sign, including any framework or other embellishments.
- d. Projections. Wall and projecting signs shall be measured from the building facade to the farthest aspect of the sign, including any framework or other embellishments.
- e. Measurement of Street Frontage. For the purpose of this Section street frontage is the length of the public street abutting the parcel on which the sign is located. For the purposes of determining allowable sign area the following shall apply:
- (1) An alley shall not be used to calculate street frontage.
- (2) A City-approved private street may be used to calculate street frontage.
- (3) For corner lots, the frontage of all streets shall be cumulative.
- f. Measurement of Building Frontage. For the purposes of determining allowable sign area the following shall apply:
- (1) The frontage of a building shall include only the elevation(s) facing a public street.
- (a) If a building has more than one (1) elevation facing a public street, the cumulative building frontages shall be used to determine the maximum sign area.
- (b) An alley shall not be used to calculate building frontage.
- (c) A City-approved private street may be used to calculate building frontage.
- (2) Building frontage is determined by measuring a straight line, paralleling the street-facing elevation, between the two (2) most distant ends of the building.
- (3) In the case of an irregular elevation surface, a single straight line approximating such elevation shall be used to measure the elevation's length.
- (4) Building frontage used as the basis of determining allowed sign area for one use may not be used again as the basis for determining the permitted sign area for another use.

(5) Multi-Tenant Buildings. The portion of a building that is owned or leased by a single occupant shall be considered a building unit. The building frontage for a building unit shall be measured from the centerline of the party walls defining the building unit.

g. Final Determination and Appeals. Final determination of measurements and computations for signs and advertising devices shall be made by the City Manager or designee. Appeals shall be made to the Planning and Zoning Commission.

Section 6. The City Council of the City of Englewood, Colorado hereby authorizes amending Title 16, Chapter 6, Section 13, by deleting Subsections H through K, and the addition of a new Subsection F, of the Englewood Municipal Code 2000, regarding principal signs of the Sign Code to read as follows:
