City of Englewood, Colorado

August 2012 Financial Report

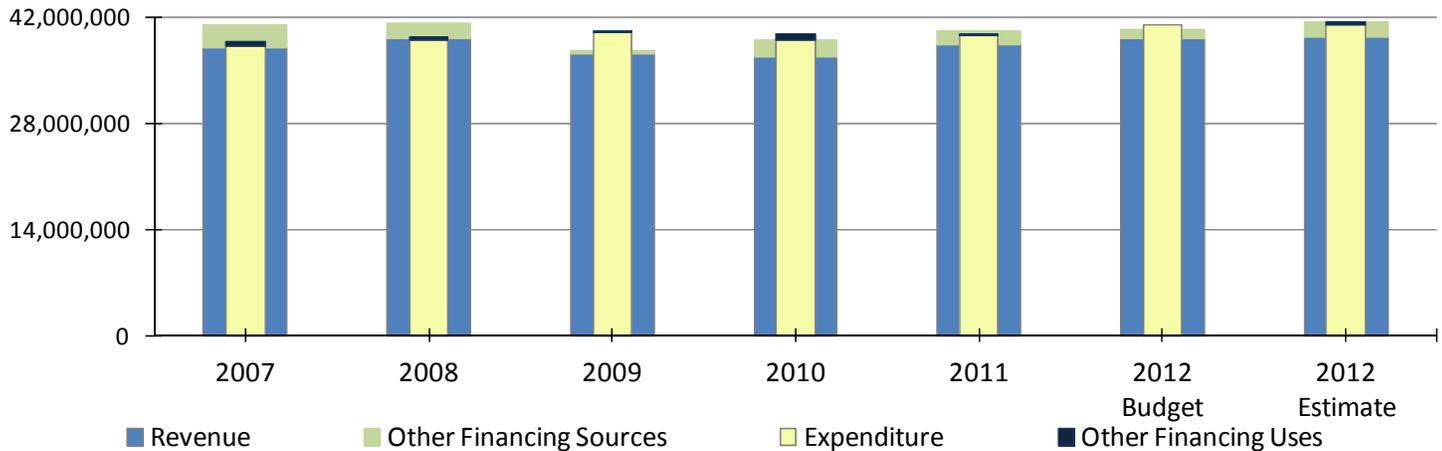

GENERAL FUND OVERVIEW AND ANALYSIS

The General Fund accounts for the major “governmental” activities of the City. These activities include “direct” services to the public such as Police, Fire, Public Works, Parks and Recreation, and Library Services. General government also provides administrative and oversight services through the offices of City Manager and City Attorney; the departments of Information Technology, Finance and Administrative Services, Community Development, Human Resources, Municipal Court and Legislation. Debt service, lease payments, and other contractual payments are also commitments of the General Fund.

General Fund - Surplus and Deficits

The graph below depicts the history of sources and uses of funds from 2007 to 2012 Estimate. As illustrated, both surpluses and deficits have occurred in the past. The gap has narrowed over the past few years by reducing expenditures, freezing positions, negotiating lower-cost health benefits, increased revenue collections. Continued efforts will be required to balance revenues and expenditures, especially with persistent upward pressure on expenditures due to increases in the cost of energy, wages and benefits.

General Fund: Total Sources and Uses of Funds

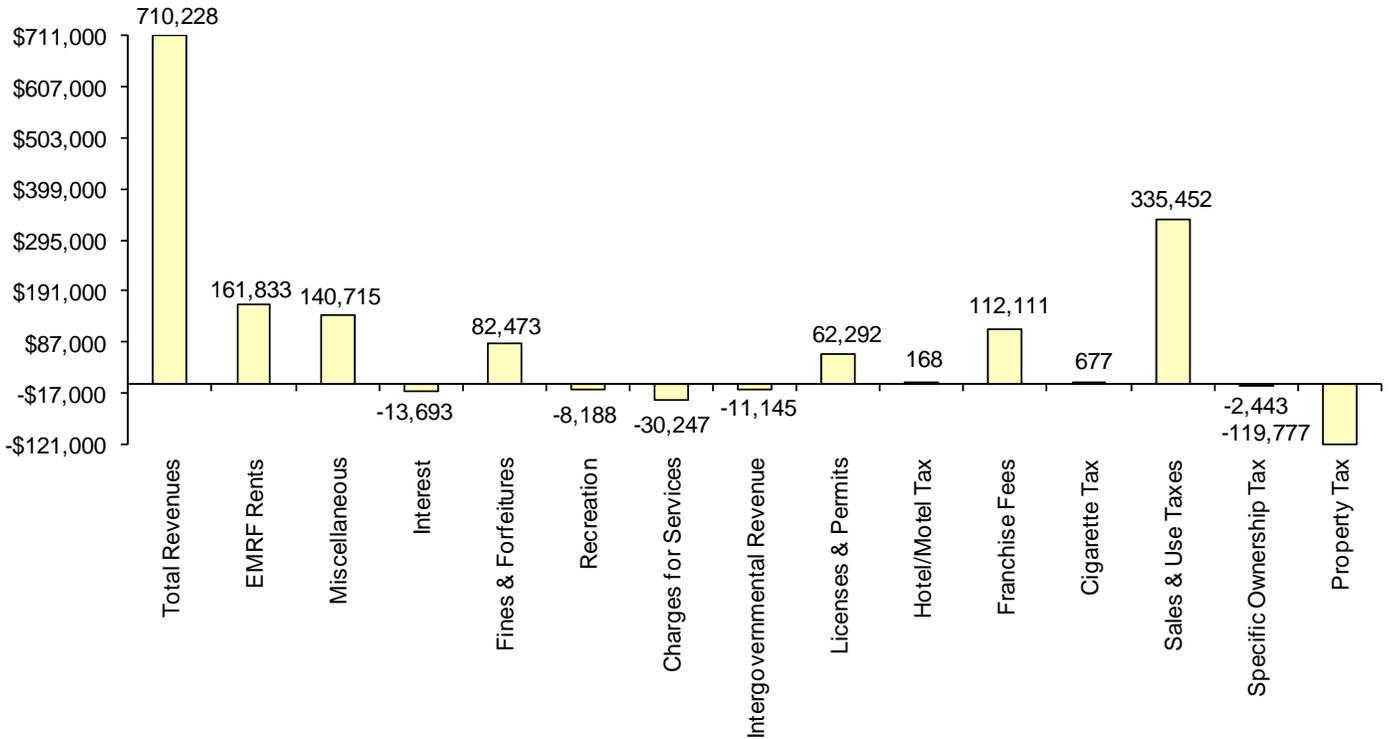

The table below summarizes General Fund Year-To-Date (YTD) Revenue, Expenditure, Sales & Use Tax Revenue and Outside City Sales & Use Tax Revenue for the month ended August, 2012. Comparative figures for years 2011 and 2010 are presented as well. The table also highlights the dollar and percentage changes between those periods.

General Fund Revenues

The City of Englewood’s total budgeted revenue is \$39,120,001. Total revenue collected through August 2012 was \$27,903,398 or \$710,228 (2.6 percent) more than was collected in 2011. The chart below illustrates changes in General Fund revenues this year as compared to last year.

2012 Year-To-Date Change in General Fund Revenue as Compared to Prior Year

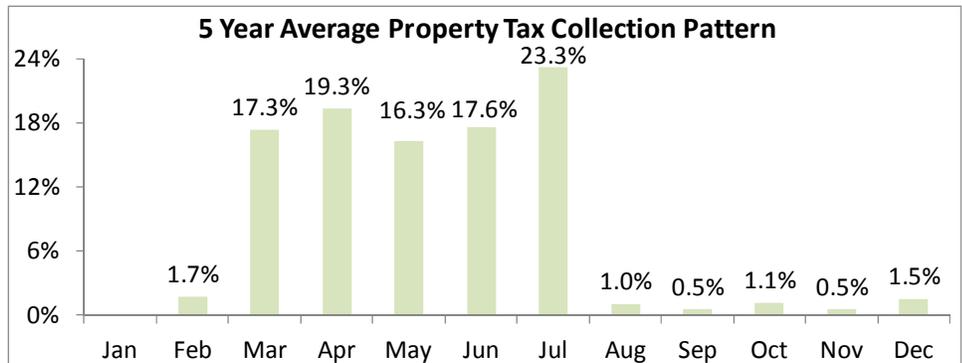

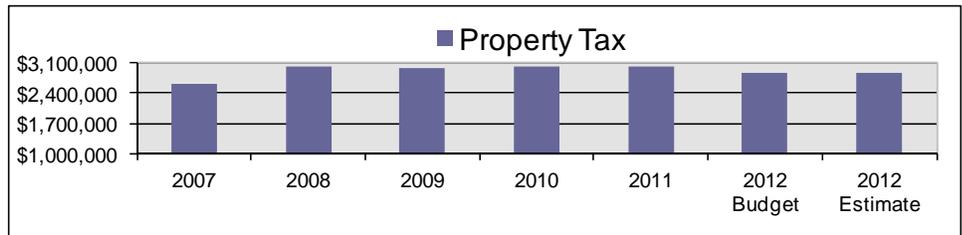

General Fund - Taxes

The General Fund obtains most of its revenue from taxes. In 2011 total revenues were \$38,306,575 of which \$27,809,361 (72.6 percent) came from tax collections. Taxes include property, sales and use, specific ownership, cigarette, utilities, franchise fees, and hotel/motel. The following pie charts illustrate the contribution of taxes to total revenue for 2007, 2011 and 2012 Budget. Taxes as a percentage of total revenue have declined slightly as other fees and charges have been increased to help offset rising costs and relatively flat tax revenues.

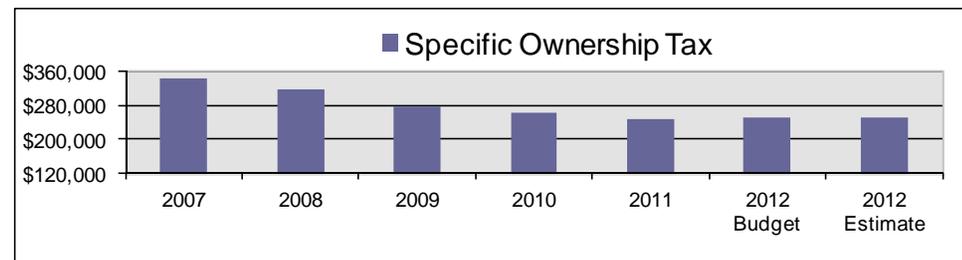

General Fund Revenues Taxes vs. Other

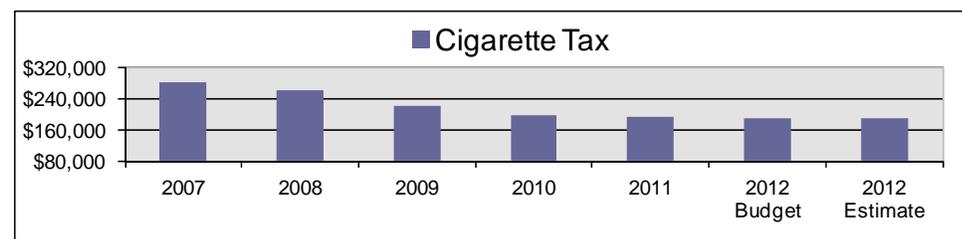

Property taxes: These taxes are collected based on the assessed value of all the properties in the City and the mill levy assessed against the property. The City's total 2011 mill levy collected in 2012 is 7.911 mills. The 2011 mill levy for general operations collected in 2012 is 5.880 mills. In 2001, voters approved a separate, dedicated mill levy for principal and interest payments on the City's general obligation debt for the construction of parks and recreation projects. The dedicated general obligation debt mill levy is accounted for in the Debt Service Fund. The dedicated general obligation debt mill levy dedicated for the City's general obligation debt collected in 2012 is 1.741 mills. The General Fund Property Tax collections grew from \$2,623,118 in 2007 to \$2,994,213 in 2011. This was an increase of \$371,095 or 14.1 percent. In 2011 the City collected \$2,994,213 or 10.8 percent of 2011 total taxes and eight percent of total revenues from property taxes. The City budgeted \$2,880,000 for 2012; and collected \$2,784,428 through August 2012. The estimate for the year is \$2,880,000.

Specific ownership: These taxes are based on the age and type of motor vehicles, wheeled trailers, semi-trailers, etc. These taxes are collected by the County Treasurer and remitted to the City on the fifteenth day of the following month. The City collected \$341,423 in 2007 and \$246,062 in 2011 which is a decrease of \$95,361 or 27.9 percent. The City collected \$246,062 in 2011 which is less than one percent of total revenues and total taxes. The City budgeted \$250,000 for 2011 and collected \$143,873 through August 2012. The estimate for the year is \$230,000.

Cigarette Taxes: The State of Colorado levies a \$.20 per pack tax on cigarettes. The State distributes 46 percent of the gross tax to cities and towns based on the pro rata share of state sales tax collections in the previous year. These taxes have fallen significantly in the past and continue to fall after the 2009 federal tax increase of approximately \$.62 per pack went into effect. This federal tax increase will fund the State Children's Health Insurance Program (CHIP). In 2007 the City collected \$278,785, but in 2011 the City collected \$190,763, which is a decrease of \$88,022 or 31.6 percent. These taxes accounted for less than one percent of total taxes and less than one percent of total revenues in 2010. The City budgeted \$190,000 for the year and collected \$121,643 through August 2012, which is \$677 or .6 percent more than the \$120,966 collected through August 2011. The estimate for the year is \$184,000.

Franchise Fees: The City collects a number of taxes on various utilities. This includes franchise tax on water, sewer, and public services, as well as occupational tax on telephone services. The City collected \$2,356,385 in 2007 and \$2,631,393 in 2011, an increase of \$275,008 or 11.7 percent. These taxes accounted for 9.4 percent of taxes and 6.9 percent of total revenues in 2011. The City budgeted \$3,056,938 for the year; collections through August totaled \$1,705,558 compared to \$1,593,447 collected during the same period last year. The estimate for the year is \$3,067,552.

Hotel/Motel Tax: This tax is levied at two percent of the rental fee or price of lodging for under 30 days duration. The City budgeted \$8,713 for the year and has collected \$6,551 through August 2012. The estimate for the year is \$9,000.

Sales and Use Taxes Analysis

Sales and use taxes are the most important (and volatile) revenue sources for the City. Sales and use taxes generated 78.2 percent of all taxes and 57.2 percent of total revenues collected in 2011. In 2007, this tax generated \$22,753,820 for the City of Englewood; in 2011 the City collected \$21,737,110, a decrease of 4.5 percent. This tax is levied on the sale price of taxable goods. Sales tax is calculated by multiplying the sales price of taxable goods times the sales tax rate of 3.5 percent. Vendors no longer receive a fee for collecting and remitting their sales/use taxes. Taxes for the current month are due to the City by the twentieth day of the following month. The City budgeted \$22,115,126 for 2012. Sales and Use Tax revenue through August 2012 was \$15,313,404 while revenue year-to-date for August 2011 was \$14,977,952, an increase of \$335,452 or 2.2 percent.

Collections (cash basis) for August 2012 were \$1,576,884 while collections for August 2011 and August 2010 were \$1,726,661 and \$1,506,850 respectively. August 2012 collections were 8.7 percent or \$149,777 less than August 2011 collections and \$11,666 or .7 percent more than August 2010 collections.

Based on the last five years of sales tax collection data, year to date collections through August contribute 69.9 percent of the total year's sales tax collections; if this pattern holds this year, 30.1 percent is left to collect over the next four months. Based on collections through August, the City will collect an additional \$6,594,184 over the next four months for a total of \$21,907,588. Collections through August were 102.2 percent of collections received last August. If this were applied to the entire year, the total collected would be \$22,223,942; the average of the two forecasts is \$22,065,765.

The City budgeted \$22,115,126 for the year. Based on the last five years of sales tax collection data, year to date collections through August contribute 69.9 percent of the total year's sales tax collections. Based on historical collection patterns, the City should have collected \$15,458,473. At this time the collections are \$145,069 ahead of expectations.

Outside City sales and use tax collections through August totaled \$5,228,301 equaling a decrease of approximately \$571,827 from 2011.

This revenue source tends to ebb and flow (often dramatically) with the economy, growing during economic expansions and contracting during downturns. The past three years of sales tax collections have been exceptionally erratic making it extremely difficult to make accurate short or long term forecasts. It is important to continually review and analyze sales and use tax data including trends in the various geographic areas of the City.

The chart on the next page, “Change in Sales/Use Tax Collections by Area 2012 vs. 2011” indicates that most of the increase in sales tax collections is due to Outside City (Area 7) and Collections from Public Utilities (Area 8). Economic conditions, judged by sales tax collections, appears to be a “mixed bag” with some geographic areas increasing and some decreasing compared to the same period last year.

Please note that the geographic map of the sales tax areas was changed as of the February 2012 report, and hopefully makes more sense. Some of the areas will look skewed until more comparable data is available (next year). EURA Areas 9 & 10 and EURA Areas 11 & 12 were incorporated into Areas 1, 2 and 6. Specific changes include:

- Area 1 east boundary will change at Bannock St/Englewood Pkwy east to Acoma St south to Jefferson Ave/Hampden Ave/US 285
- Split the address down the middle of the streets for Area 2 and Area 3: Bannock St and Sherman St
- Split the address down the middle of the streets for Area 3 and Area 4: Belleview Ave, Fox St and Logan St
- The north and south side of the street included in Area 1: Jefferson Avenue
- The north and south side of the street included in Area 2: Jefferson Ave/Hampden Ave/US 285

Information for business and geographic Areas 7 and 8 follows:

Area 7: This geographic area records the outside city sales tax collections (Outside City). Outside City has been the geographic area responsible for much of the sales tax growth (and decline) in past years. Outside City collections have decreased 1.2 percent from the same period last year. The chart below illustrates this area's contribution to total sales and use taxes (cash basis) as well as total revenues since 2008 for collections through the month of August. The

importance of Outside City has declined as a percentage of sales and use tax collections but it continues to remain an important impact on the City's General Fund as illustrated by the following:

	2008	2009	2010	2011	2012
Total Sales and Use Taxes	15,752,611	14,284,984	14,045,587	15,569,443	15,310,529
Outside City Collections	5,636,732	4,738,807	4,415,652	5,800,128	5,228,301
Percentage of Total	35.8%	33.2%	31.4%	37.3%	34.1%
Total General Fund Revenues	27,379,198	25,977,581	25,732,390	27,193,170	27,903,398
Outside City Collections	5,636,732	4,738,807	4,415,652	5,800,128	5,228,301
Percentage of Revenues	20.6%	18.2%	17.2%	21.3%	18.7%

The City records the proceeds of some returns from Outside City into an unearned revenue (liability) account. The criteria staff uses to decide if proceeds should be placed in the unearned account is if a reasonable probability exists for another municipality to claim the revenue. This account currently has a balance of \$1,100,000 to cover intercity claims. The City paid \$95,482 in refunds including intercity sales/use tax claims through August 2012 compared to \$32,038 through August 2011. At this time *potential* refunds total approximately \$1,290,000 for claims submitted to Englewood but not completed.

Area 8: This geographic area consists of collections from public utilities. Collections through August 2012 were 3.8 percent or \$44,245 less than August 2011. Weather conditions, energy usage conservation, and rising energy prices play an important role in revenue collections. Collections could increase or decrease if the remainder of the year is significantly hotter/colder than normal.

Other Sales Tax Related Information

Finance and Administrative Services Department collected \$99,576 in sales and use tax audit revenues and general collections of balances on account through the month of August 2012, this compares to \$170,029 collected in 2011 and \$292,845 collected in 2010.

Of the 52 sales tax accounts reviewed in the various geographic areas, 33 (63.5 percent) showed improved collections and 19 (36.5 percent) showed reduced collections this year compared to the same period last year.

The Department issued 259 new sales tax licenses through August 2012; 262 and 248 were issued through August 2011 and 2010 respectively.

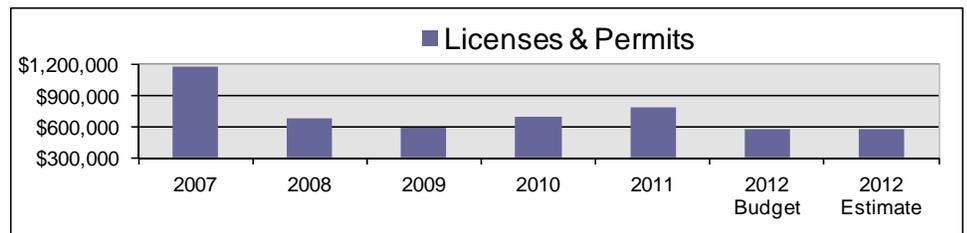

City records indicate that year-to-date 102 businesses closed (64 of them were outside the physical limits of Englewood) and 295 opened (194 of them were outside the physical limits of Englewood).

General Fund - Expenditures

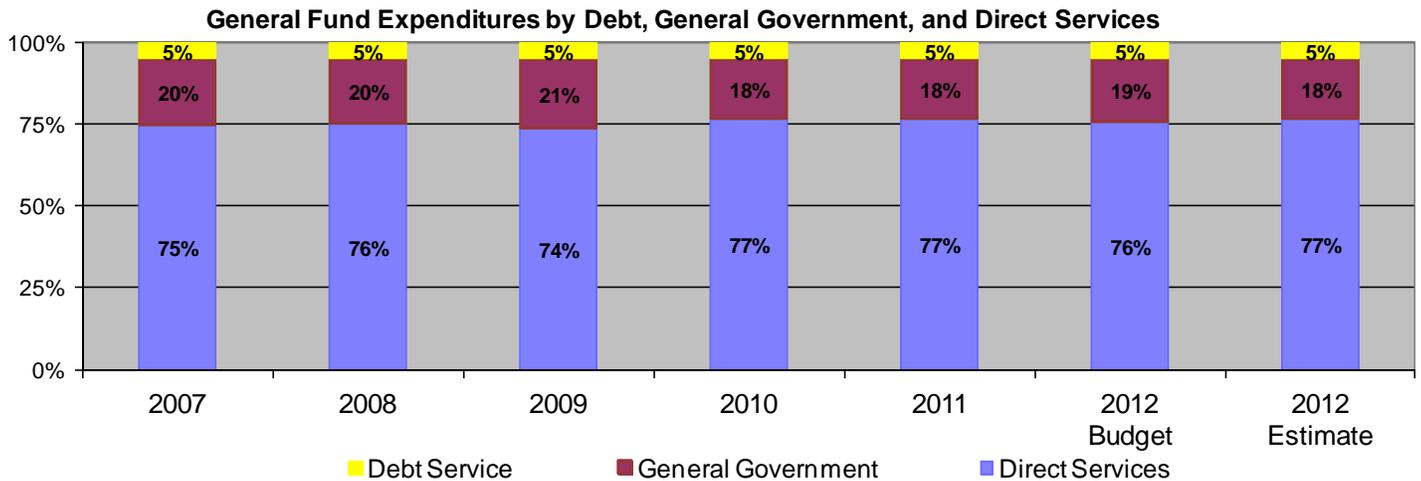

In 2006 the City adopted an outcome based budgeting philosophy. City Council and Staff outlined five outcomes to reflect, more appropriately, the desired result of the services delivered to the citizens of Englewood. The five outcomes identified are intended to depict Englewood as:

- ▶ A City that provides and maintains quality infrastructure,
- ▶ A safe, clean, healthy, and attractive City,
- ▶ A progressive City that provides responsive and cost efficient services,
- ▶ A City that is business friendly and economically diverse, and
- ▶ A City that provides diverse cultural, recreational, and entertainment opportunities.

Outcome based budgeting is an additional tool the City Council and staff use to better develop ways to serve our citizens. This type of budgeting is refined and reviewed on an on-going basis to help us better focus our resources in meeting the objectives of our citizens.

The City budgeted total expenditures at \$40,949,793 for 2012, this compares to \$39,496,268 and \$38,901,342 expended in 2011 and 2010 respectively. Budgeted expenditures for 2012 general government (City Manager, Human Resources, etc.) totals \$7,728,324 or 18.9 percent of the total. Direct government expenditures (Police, Fire, etc.) are budgeted at \$31,160,730 or 76.1 percent of the total. Debt service (fixed costs) payments are \$2,060,739 or five percent of the total. Total expenditures through August were \$27,422,823 compared to \$25,694,582 in 2011 and \$25,521,069 in 2010.

The chart below illustrates the breakdown of expenditures into debt service, general and direct government services.

General Fund - Transfers

The General Fund has provided funds to and has received funds from Special Revenue Funds, Capital Projects Funds, Internal Service Funds and Component Units in order to buffer temporary gaps in revenue and expenditure amounts. In 2012 the General Fund is not in the position to provide funding to the Capital Projects Funds but has received the following net transfers:

Source of Funds	2012 Budget Amount	2012 YTD Amount	2011 Annual Amount
Special Revenue Funds			
Neighborhood Stabilization Program Fund*	\$ -	\$ 312,726	\$ 396,130

Employee Benefits Fund	-	-	165,000
Transfers Total	<u>\$ 1,306,739</u>	<u>\$ 1,185,465</u>	<u>1,645,438</u>

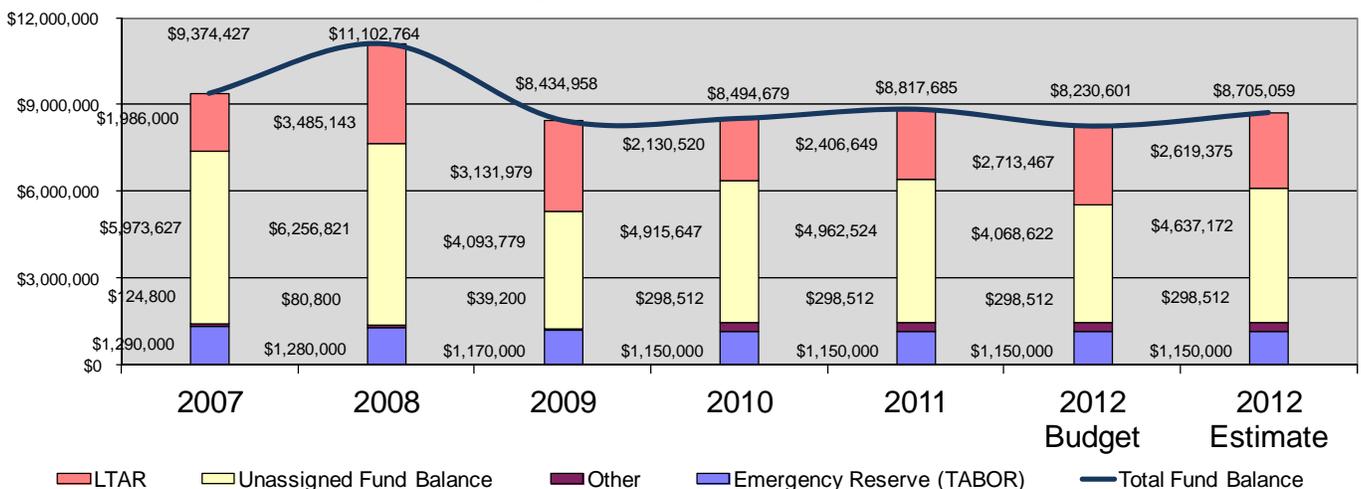

*In addition to the 2011 amount received (\$396,130) from the Neighborhood Stabilization Program (NSP) Fund, the NSP Fund returned \$47,052 in 2010 of the \$750,000 borrowed in this same year. All the funds borrowed by the NSP Fund in 2010 plus interest in the amount of \$5,908 have been repaid to the General Fund Long-Term Asset Reserve.

General Fund - Fund Balance

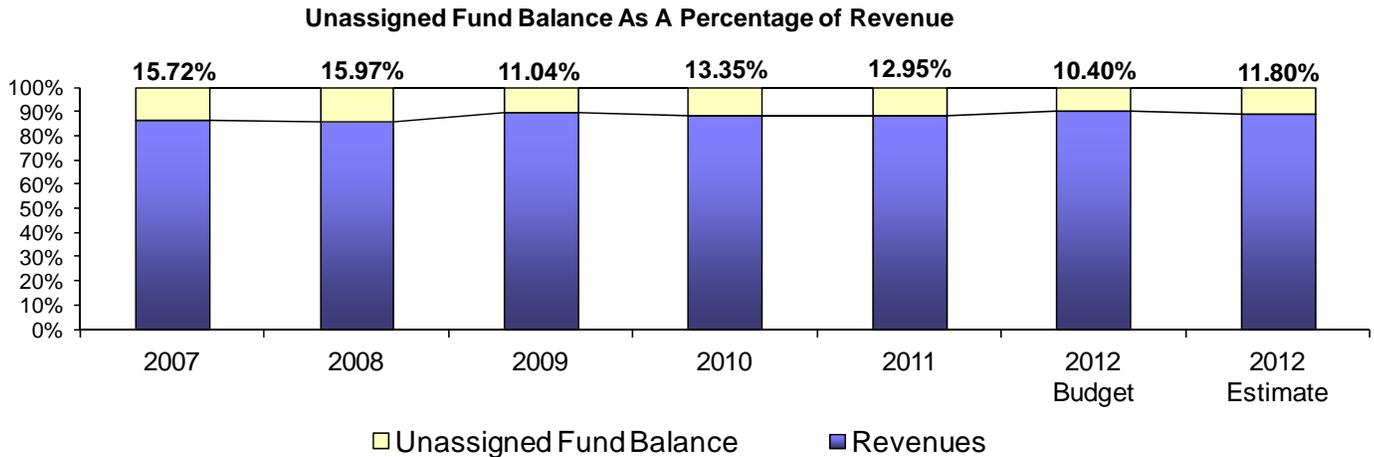

The City designates the fund balance into two categories, restricted and unrestricted. The portion of the fund balance which is restricted is referred to as the “Reserves” while the unrestricted portion is referred to as the unassigned fund balance. The unassigned fund balance represents funds the City sets aside for a “rainy day”. Another way to view these unrestricted funds is as a stabilization fund, the intent of which is to smooth over unexpected fluctuations in revenues and expenditures. The fund balance is normally built up when revenues exceed expenditures. In the past, excess funds have been transferred out, usually for capital projects identified in the Multiple Year Capital Plan (MYCP). The unassigned fund balance is not adequate to provide for a transfer from the General Fund to the capital projects funds.

Long Term Asset Reserve (LTAR) At the 2008 Budget workshop held on August 22, 2007, City Council discussed and directed staff to establish a General Fund reserve account to accumulate funds from the sale, lease, or earnings from long-term assets. It was also determined that these funds should be used in a careful, judicious and strategic manner. The funds restricted in this account are to be expended if the funds are appropriated in the annual budget or by supplemental appropriation. The balance at the end of August 2012 is \$2,619,375. Council reduced the LTAR balance by \$100,000 for improvements to the Little Dry Creek Plaza at the August 4, 2012 regular Council Meeting).

General Fund Reserves

The City's General Fund ended 2011 with total fund balance of \$8,817,685, and an unassigned fund balance of \$4,962,524 is 12.95 percent of revenues or 12.6 percent of expenditures. The estimated total ending fund balance for 2012 are \$8,705,059 with an unassigned fund balance of \$4,470,172 or 11.3 percent of estimated revenues or 10.9 percent of estimated expenditures. The \$4,470,172 would allow the City to operate for approximately 39.7 days (using average daily estimated expenditures) if all other revenues and financing sources ceased. In these times of economic uncertainty, it is more important than ever to maintain reserves to help the City make up for revenue shortfalls and unexpected expenditure increases given that the one-time transfers made to the General Fund to help maintain reserves are no longer available.

PUBLIC IMPROVEMENT FUND OVERVIEW

The Public Improvement Fund (PIF) accounts for the City's "public-use" capital projects (e.g. roads, bridges, pavement, etc.). The PIF funding is from the collection of vehicle and building use taxes, intergovernmental revenues, interest income, and other miscellaneous sources.

Provided for your information is the table below that illustrates the PIF Year-To-Date (YTD) revenue and expenditure amounts for the years 2010 through 2012. The dollar and percentage change between each year is also provided. The Estimated Ending Fund Balance is included in order to account for the remaining PIF appropriation in addition to the remaining annual revenue anticipated for the fund.

Vehicle Use Tax is based on the valuation of new vehicles purchased by City of Englewood residents. This tax is collected and remitted by Arapahoe County at the time the vehicle is registered. **Building Use Tax** is based on the valuation of building permits issued by the City of Englewood. These revenue sources are monitored periodically to determine the revision of the 2012 Estimate. **Arapahoe County Road and Bridge Tax** is restricted to the construction and maintenance of streets and bridges. This tax is based on a mill levy established by Arapahoe County multiplied by the City's assessed valuation multiplied by 50%.

CLOSING

The Finance and Administrative Services Department staff works closely with the City Manager's Office and the various departments to help identify revenue and expenditure threats, trends and opportunities as well as strategies to balance revenues and expenditures. I will continue to provide Council with monthly reports. It is important to frequently monitor the financial condition of the City so City staff and Council can work together to take action, if necessary, to maintain service levels, employees, and fiscal health of the City.

I plan to discuss this report with Council at an upcoming study session. If you have any questions regarding this report, I can be reached at 303.762.2401.
